

The Lemcol range of materials handling equipment has been designed and manufactured to provide high quality, low maintenance products suitable for factory and general use. They reduce the physical effort involved in many manual handling operations and improve efficiency, as well as provide a safer working environment.

Lemcol Hand Trucks

The range of Lemcol hand trucks is extremely robust and ideal for the movement of heavy or awkward items.

There are two models, both of heavy-duty strong tubular construction. Perfectly balanced, they require a minimum amount of effort in handling heavy loads.

These trucks have identical frames with interchangeable wheel and axle assemblies.

Sturdy 6mm thick steel wheel guards limit the possibility of the load fouling the wheels.

Puncture-proof cushion wheels are used to provide good shock absorbing properties on rough surfaces and offer maximum protection to floor surfaces.

12 Month Warranty

This range carries our standard 12 month warranty against faulty workmanship and materials, and is backed by a service and parts network Australia wide.

HAND TRUCKS				Dimensions in mm			
Width (mm)	Capacity (kg)	Toeplate Length (mm)	Wheel Model No.	Wheel Type	Wheel Dia. (mm)	Model Number	Product Code
